Acetone Sales Certification

The Environmental Protection Agency has issued a test order for Acetone under the Federal Food, Drug and Cosmetic Act. This order is specific to Acetone used in the formulation of pesticide products. Harcros has elected to opt out of this testing program by not offering Acetone for use in pesticide formulations.

Please sign below to indicate that your company will comply with the following statement:

“Buyer shall not use Acetone in the formulation of a pesticide product, or sell or distribute Acetone to any person the buyer knows or reasonably should know intends to use Acetone in the formulation of a pesticide product, as of August 25, 2010.”
